

SecureLiving[®] Index 5 Quick Reference Guide

Prepare for the unpredictable.

Designed for people who want:

- To protect retirement assets from the negative impact of an unpredictable market
- The opportunity to earn higher crediting rates than many fixed rate alternatives
- Tax deferred growth

Not designed for people who:

- Seek market-based growth without limits or caps
- Do not intend to remain in the contract through the surrender charge period or plan to take withdrawals greater than the free withdrawal amount

Guaranteed Minimum Accumulation Value	104% of premium less adjustment for any withdrawals.
Issue ages	0 - 85 (80 in OK)
Premium	Minimum \$25,000 qualified/non-qualified Maximum \$1,000,000 without home office approval
Interest Crediting Strategies	You can allocate among fixed rate and index crediting strategies each contract year in increments of 1%. Allocation can only be changed on an annual basis, during the 21 calendar day period following each contract anniversary. You may only allocate into the 5 year fixed rate strategy at issue.
Index Crediting Strategies Using the S&P 500[®] Index	Annual CapMax SM Strategy Annual Cap Strategy (point to point) Monthly Cap Strategy (point to point) Performance Triggered Strategy
Fixed Rate Crediting Strategies	5-Year Fixed Rate Strategy - Rate renews annually at the end of the 5 year period. Only available at issue. 1-Year Fixed Rate Strategy - Rate renews annually. Not available at issue.
Caps/Rates	Please refer to the rate sheet for current caps and interest rates.
Bailout Cap Rate	During the surrender charge period, if the renewal cap for the annual cap strategy is below the bailout cap rate, you may make a partial or full surrender from the contract during the 45 day bailout window, regardless of your allocation, without surrender charge or market value adjustment (MVA). Any partial withdrawal will reduce your annual free withdrawal amount.

Surrender Charge	Year	1	2	3	4	5	6+
	5 years	9%	9%	8%	7%	6%	0%
Fees/Charges	No up front fees or sales charges						
Market Value Adjustment (MVA)	In addition to surrender charges, an MVA will apply if you withdraw more than the free withdrawal amount or surrender your contract before the end of your surrender charge period. The MVA is an adjustment to your withdrawal that compares the MVA index rate* at the time of withdrawal with the MVA index rate on the day prior to your effective date. The MVA may increase or decrease the amount you receive. There is no MVA after the surrender charge period.						
Free Withdrawals	10% of contract value each contract year beginning in year 2. For qualified contracts, required minimum distributions for the contract are permitted in all years.						
Death Benefit (prior to annuitization)	Contract value						

SecureLiving® Index Single Premium Deferred Annuities are issued by Genworth Life and Annuity Insurance Company, Richmond, VA. Subject to policy forms GA3003 -0711 et al. Features may not be available in all states. In IL this product is called an Individual Modified Guaranteed Equity Index Single Premium Deferred Annuity.

Genworth Life and Annuity Insurance Company is licensed in all states except New York.

All guarantees are based on the claims-paying ability of Genworth Life & Annuity.

The discussion of tax treatments in this material is the Genworth's interpretation of current tax law and is not intended as tax advice. You should consult your tax professional regarding your specific situation.

Withdrawals may be taxable and a 10% federal penalty may apply to withdrawals taken before age 59½.

There is no additional tax deferral benefit for annuities purchased in an IRA, or any other tax-qualified plan, since these plans are already afforded tax-deferred status. The other benefits and costs should be carefully considered before purchasing an annuity in a tax-qualified plan.

The S&P 500® Index is a price index and does not reflect dividends paid on the underlying stocks.

The S&P 500® Index is a product of S&P Dow Jones Indices LLC ("SPDJI") and has been licensed for use by Genworth Life and Annuity Insurance Company and Genworth Life Insurance Company hereinafter referred to as "Licensee". Standard & Poor's®, S&P®, and S&P 500® are registered trademarks of Standard & Poor's Financial Services LLC ("S&P") and these trademarks have been licensed for use by SPDJI and sublicensed for certain purposes by Licensee. Licensee Index Universal Life Product(s) are not sponsored, endorsed, sold or promoted by SPDJI, S&P, or their

respective affiliates, and none of such parties make any representation regarding the advisability of investing in such product(s) nor do they have any liability for any errors, omissions, or interruptions of the S&P 500® Index.

Although the contract value may be affected by the performance of an index, the contract is not a security and does not directly or indirectly participate in any stock or equity investment including but not limited to, any dividend payment attributable to any such stock or equity investment.

The MVA adjustment is calculated using a percentage determined by multiplying the number of whole and partial years remaining in the surrender charge period by the change in the MVA index rate since the beginning of the surrender charge period. The adjustment is limited and will never exceed (either positive or negative) the surrender charge percentage in the year that the withdrawal is taken. If the MVA index rate* has gone up, the adjustment will be negative, reducing the amount you receive. If the index rate has gone down, the adjustment will be positive, increasing the amount you receive.

*The MVA index rate used is the rate for The 5 Year Treasury Constant Maturity Series.

This is a brief product description. Consult the annuity contract for a detailed description of benefits, limitations, and restrictions. The contract terms and provisions will prevail.
