## Intuitions Flexible Premium Deferred Annuity at a glance

**Purpose:** To steadily accumulate retirement assets on a tax-deferred basis through periodic premium payments with a current interest rate coupled with the safety of a minimum interest rate guarantee.

**How it works:** An Intuitions Flex Annuity is a Flexible Premium Deferred Annuity (FPDA) that lets you decide how much and how often to contribute. You can make monthly premium payments of as little as: \$25 (ages 0-24), \$50 (ages 25-49), or \$100 (ages 50-85). Ongoing premium contributions can be made monthly by automatic bank draft or through quarterly, semiannual, or annual reminders.

An Intuitions Flex Annuity offers both growth potential and safety. Each premium payment earns a current rate of interest that is locked in for one year. Multiple payments in a given year may each carry a different interest rate as rates shift. This enables you to take advantage of a rising interest rate environment. The current interest rate for a given premium payment is subject to change on the payment's anniversary. At the same time, an Intuitions Flex Annuity also provides downside safety. Your money can never earn less than the guaranteed minimum interest rate as stated in your contract at the time of purchase.

All interest is tax-deferred, which means that no taxes are due until distribution is made from the annuity. When you are ready to retire, benefits can be taken under several options - from a lump sum to a guaranteed income for life, regardless of how long you live.

If you qualify, your Woman's Life Intuitions Flex Annuity can also be issued as a Roth or Traditional IRA.
