NWL[®] Ultra Value

Enjoy peace of mind as you prepare for your retirement.

NWL[®] Ultra Value annuity is a flexible premium deferred annuity.

It is a **long-term contract** intended as a secure planning vehicle for retirement accumulation and income. NWL Ultra Value annuity provides the important benefits of many tax deferred annuities: interest accumulation, safety, tax-deferral, and liquidity.

Like any annuity issuer, NWL[®] incurs expenses to sell and issue its annuity policies, including compensation to its agents, bonus amounts and/or additional interest (if applicable), option costs, and various other expenses, and these expenses are taken into consideration when interest rates, asset fee rates, and participation rates are established and reset.

You will receive all benefits as set forth in the Contract.

Highlights

Product Type	Flexible Premium Deferred Fixed Indexed Annuity
Contract Term	9 Years
Withdrawal Charge Period	9 Years
Issue Ages	Annuitant 0–80 Owner 0–85 (If Different from Annuitant)
Premium	Minimum Qualified - \$2,000 Non-Qualified - \$5,000 Maximum \$500,000 without prior approval Additions \$100 Minimum
Premium Bonus	2% of each premium payment in Policy Years 1-5
Interest Strategies	Monthly Average with a Participation Rate and Asset Fee Rate Option A Low Volatility Annual Point-to-Point with a Participation Rate and Asset Fee Rate Option U Fixed Interest Rate Option B
Minimum Guaranteed Interest Rate	The Minimum Guaranteed Interest Rate is never less than 1.00% and never more than 3.00%
Free Withdrawals	10% of the Account Value once annually including the first Policy Year. IRA Qualified - RMD free of a Withdrawal Charge in all Policy Years.
Systematic Interest	Interest available systematically in lieu of Free Withdrawal option above. Each payment must be at least \$100.00. See Policy for details.
Death Benefit	Contract Value (Cash Surrender Value in Louisiana and Guam) as a Single Sum or Contract Value as a Settlement Option, if Annuitant dies before Annuity Date. If Annuitant dies on or after the Annuity Date, we will pay the Beneficiary any unpaid guaranteed amounts provided by the Settlement Option in force on the date of death.
Policy Loan*	Non-qualified contracts only; loan rate is 7.4% in advance
Annuitization*	Annuitize at full Contract Value as early as the end of the 5th Policy Year (after the 1st Policy Anniversary in Florida)

* Benefit terms and/or benefit availability may vary by state.

Premium Payment & Issue Ages

A minimum initial premium payment of at least \$2,000 (qualified) or \$5,000 (non-qualified) is required. Additional premium payments of at least \$100 can be made. Any premiums received more than 20 calendar days after the issue date, or after any subsequent Policy Anniversary, will earn the non-indexed fixed interest rate until the next Policy Anniversary.

Premium Bonus - 2% First-Year – Each premium payment in the first 5 Policy Years receives a premium bonus of 2%. In the Policy, this premium bonus is expressed as a Percentage of Premium, e.g., 102% times each premium payment in the first 5 Policy Years.

The Company does have the right to limit premium payments in any renewal year to the amount of premiums made in the preceding year.

Premium payments in excess of \$500,000 may require prior Company approval.

If applicable, Federal, State, and Municipal taxes, and any fees or assessments related to the Policy, payment of which is required or authorized by law, will be deducted from the benefits under the Policy as required or authorized by law.

NWL will not issue this annuity if the age of the Annuitant or Owner exceeds the maximum Issue Age, which is published from time to time.

***See description of available Withdrawal Benefit Riders for more information regarding rider charges and benefits.**

Withdrawal Charges

This is a long-term accumulation annuity. A Withdrawal Charge will apply during the first nine Policy Years if you surrender your Policy. In addition, if you take a partial withdrawal, you will incur a Withdrawal Charge, unless you exercise one of the available options to avoid Withdrawal Charges, which are described later in this brochure.

Interest is charged on any withdrawal from the processing date to the next Option Term End Date.

If you surrender your policy, Withdrawal Charges are calculated by multiplying the Account Value, less any unexercised amounts available to you without a Withdrawal Charge, by the Withdrawal Charge Rate shown on the schedule below. If you take a partial withdrawal, Withdrawal Charges are calculated by multiplying the partial withdrawal amount, less any unexercised amounts available to you without a Withdrawal Charge, by the applicable Withdrawal Charge Rate shown below.

Withdrawal Charge Rates

Policy Year	1	2	3	4	5	6	7	8	9	10+
Rate	9.25%	8.25%	7.25%	6.25%	5.00%	4.00%	3.00%	2.00%	1.00%	0.00%

Policy Values

The **Account Value** is equal to 102% of premium payments made during the first 5 Policy Years and 100% of premium payments made after the 5th Policy Year, less partial withdrawals and applicable Withdrawal Charges, and less any applicable rider and/or endorsement charges and benefits*, accumulated with interest. Interest is based on the Interest Credit Option(s) that you have selected.

The **Cash Surrender Value** is the Account Value less a Withdrawal Charge, if any, or the Minimum Guaranteed Contract Value, whichever is greater.

The **Minimum Guaranteed Contract Value (MGCV)** will never be less than 87.5% of premiums received, less partial withdrawals, accumulated at the Minimum Guaranteed Interest Rate.

The **Minimum Guaranteed Interest Rate (MGIR)** is set for new policies each calendar quarter. It is never less than 1.00%, has a maximum of 3.00%, and is guaranteed for the Contract Term. At the end of the Contract Term, the MGIR will be re-determined. It is the average of the 5-Year Constant Maturity Treasury Rate minus 1.25% for the 6 month period ending 1 month prior to the beginning of the current calendar quarter.

The **Contract Value** is the greater of the Account Value or the MGCV.

Available Options to Avoid Withdrawal Charges

You may exercise one of the following options to access your Policy's Account Value without Withdrawal Charges.

- One withdrawal of up to 10% of the Account Value may be withdrawn without a Withdrawal Charge* each Policy Year.
- Systematic Interest withdrawals* of interest earnings can be taken without a Withdrawal Charge as long as each payment is at least \$100 and does not invade the principal. The systematic payments may be paid monthly, quarterly, semi-annually, or annually.
- IRA Required Minimum Distribution (if applicable) in all Policy Years.*
- Policy Loan (100% Fixed Interest – Option B only).

At the end of the 9-year Contract Term, you may withdraw the full Contract Value or take a partial withdrawal without any Withdrawal Charges. You do have the right to keep the Contract Value with NWL for the rest of your life where it will continue to earn interest at a rate not less than the MGIR that has been re-determined at the end of your Contract Term.

National Western Life reserves the right to defer payment for up to 6 months after we receive your withdrawal request.

*** Please note that only one of the first 3 options above may be elected in the same Policy Year.**

Interest Credit Options

In addition to the option to earn a fixed rate of interest, you also have Indexed Interest Credit Options. All Indexed Interest Credit Options available at issue may not be available on renewal. Once selected, any current Interest Credit Option is effective for the full Policy Year. You may elect to allocate the premium to more than one Interest Credit Option. The Interest Credit Allocation Percentages for available Interest Credit Options can be any whole number percentages, in any combination, whose total is 100%.

You may change to any available Interest Credit Option for the following Policy Year by submitting a completed Interest Allocation Election Notice at least 5 business days prior to the Policy Anniversary.

Fixed Interest Option

Option B - This option provides for a fixed rate set by NWL as described in the Policy. The Interest Rate on the portion of the Account Value allocated to Interest Credit Option B is declared in advance by NWL and is guaranteed for the first Policy Year. This Interest Rate is located on page three of the Policy. After the first Policy Year, these interest rates will be declared from time to time, will likely be lower, are not guaranteed, and are subject to change.

Indexed Interest Options

All Indexed Interest is credited annually and locked-in.

Indexed Interest earned, if any, is based on a formula linked in part to the underlying index(es) of the available Indexed Interest Options. Fixed indexed annuities are not stock market investments and do not directly participate in any stock or equity investments. The indexes may not include any dividends paid on the underlying stocks. When you purchase NWL Ultra Value, you are not directly investing in a stock market index. Indexed Interest is not earned or credited until the Policy Anniversary. Until the Policy Year is over and the necessary Index Values are available, the Indexed Interest formula cannot be calculated.

If publication of an Index is discontinued, or the calculation is substantially changed, or an Index is not available to us, we will substitute a suitable alternative index, subject to the approval of the Commissioner of Insurance of the state where the Policy was issued, and notify you in writing.

The Participation Rates and Asset Fee Rates are declared at issue and guaranteed for the first Policy Year only. For subsequent years, these rates are declared by NWL on each Policy Anniversary, are not guaranteed, and are subject to change.

In subsequent Policy Years, the Participation Rates will likely be lower and the Asset Fee Rates will likely be higher, than in the first Policy Year.

Monthly Average with a Participation Rate and Asset Fee Rate

Option A

To calculate your annual return under Interest Credit Option A, NWL first calculates the Index Average. The Index Average is the average of the S&P 500® Index Values corresponding to the 12 Index Dates each Policy Year. The Index Value on the Policy Date (or prior Policy Anniversary if not the first Policy Year) is then subtracted from the Index Average. This difference is then divided by the Index Value on the Policy Date (or prior Policy Anniversary if not the first Policy Year). The resulting value is multiplied by the Participation Rate for the Policy Year and then reduced by the Asset Fee Rate for the Policy Year.

The Index Date is the same day each month as the day immediately before the Policy Date. For example, if the Policy Date is August 10th, NWL will average the Index Value for the 9th day of each month beginning with September 9th and concluding for that year with the next August 9th.

The Index Value is the closing value of the S&P 500® Index on a scheduled trading day. The Index Value on the Policy Date is the Index Value on the first day preceding the Policy Date for which the Index Value is available. The Index Value on any Policy Anniversary is the Index Value on the first day preceding the Policy Anniversary for which the Index Value is available.

The Interest Credit for Option A will never be less than zero.

Index	S&P 500®
Minimum Participation Rate	50.00%
Maximum Asset Fee Rate	6.00%

Hypothetical Example

Example calculations below assume 100% allocation of \$100,000 to Option A, a 50% Participation Rate, 0.25% Asset Fee Rate, and are based on the S&P 500® Index Values listed below.

Interest Credit Option A Formula: $[(A/B) \times C] - D \times E$

Index Date	S&P 500® Index Value		
Date of Issue	2,350	The Index Average for the current Policy Year minus the Index Value on the Prior Anniversary (or Policy Date if the first Policy Year)	$2,585 - 2,350 = 235$ (A)
Month 1	2,430	Divided By The Index Value on the Prior Anniversary (or Policy Date)	$235 / 2,350 = 0.1000$ (B)
Month 2	2,490	Multiply By The Participation Rate for the Policy Year	$0.1000 \times 0.50 = 0.0500$ (C)
Month 3	2,550	Subtract the Asset Fee Rate for the Policy Year	$0.0500 - 0.0025 = 0.0475$ (D)
Month 4	2,600	Multiply By For Policy Year 1, premiums received within 20 days after the Policy Date (including any premium bonus), or in subsequent years, the previous Policy Anniversary Account Value	$\$100,000 \times 0.0475 = \$4,750$ (E)
Month 5	2,620	Annual Interest Credited	\$4,750
Month 6	2,500	Annual Rate Credited	4.75%
Month 7	2,540		
Month 8	2,580		
Month 9	2,650		
Month 10	2,670		
Month 11	2,700		
Month 12	2,690		
Sum of 12 Monthly Values	31,020		
Average of Monthly Values	2,585		

Had the Annual Interest Credit been zero or negative, your interest credited would have been zero under this portion of your Account Value for the Policy Year.

Note: This example is strictly hypothetical and intended to demonstrate only the Option A formula. The abbreviations used in the formula and examples (e.g. A, B, C, D, etc.) may differ from the abbreviations used in the actual Interest Credit Option Endorsements. The Participation Rate and Asset Fee Rate are assumed for purposes of this example.

Low Volatility Annual Point-to-Point with a Participation Rate and Asset Fee Rate

Option U

Interest Credited under Option U is based on a formula linked in part to the Annual Change in the Index Values of the S&P 500® Low Volatility Daily Risk Control 5% Excess Return Index.

To calculate your annual return under Interest Credit Option U, NWL calculates the Annual Index Change Rate. The Annual Index Change Rate is the Index Value on the Index Date less the Index Value on the immediately preceding Index Date (or Policy Date if the first Index Date), divided by the Index Value on the immediately preceding Index Date (or Policy Date if the first Index Date), multiplied by the Participation Rate for the Policy Year and then reduced by the Asset Fee Rate for the Policy Year.

The Index Date for Option U is the last day of each annual period beginning on the Policy Date and the same day of each year thereafter. For example, if the Policy Date is January 15th, the Index Dates are January 14th in the first Policy Year and January 14th of each following year.

The Index Value is the closing value of the S&P 500® Low Volatility Daily Risk Control 5% Excess Return Index on a scheduled trading day. The Index Value on the Policy Date is the Index Value on the first day preceding the Policy Date for which the Index Value is available.

The Index Value on any Policy Anniversary is the Index Value on the first day preceding the Policy Anniversary for which the Index Value is available.

The Interest Credit for Option U will never be less than zero.

The S&P 500® Low Volatility Daily Risk Control 5% Excess Return Index includes the portion of returns generated by the underlying index that come from dividend reinvestment and is funded at LIBOR or such other rate as may be set by S&P®.

Index	S&P 500® Low Volatility Daily Risk Control 5% Excess Return
Minimum Participation Rate	20.00%
Maximum Asset Fee Rate	6.00%

Hypothetical Example

Example calculations below assume 100% allocation of \$100,000 to Option U, a 50% Participation Rate, 0.25% Asset Fee Rate, and are based on the S&P 500® Low Volatility Daily Risk Control 5% (Excess Return) Index Values listed below.

Interest Credit Option U Formula: $[(A/B) \times C] - D \times E$

Index Date	S&P 500® Low Volatitlity Daily Risk Control 5% Excess Return Index Value		
Date of Issue	161	The Index Value for the current Policy Year minus the Index Value on the Prior Anniversary (or Policy Date if the first Policy Year)	$179 - 161 = 18$ (A)
Month 12	179	Divided By The Index Value on the Prior Anniversary (or Policy Date)	$18 / 161 = 0.1118$ (B)
		Multiply By The Participation Rate for the Policy Year	$0.1118 \times .50 = 0.0559$ (C)
		Subtract the Asset Fee Rate for the Policy Year	$0.0559 - 0.0025 = 0.0534$ (D)
		Multiply By For Policy Year 1, premiums received within 20 days after the Policy Date (including any premium bonus), or in subsequent years, the previous Policy Anniversary Account Value	$\$100,000 \times 0.0534 = \$5,340$ (E)
		Annual Interest Credited	\$5,340
		Annual Rate Credited	5.34%

Had the Annual Interest Credit been zero or negative, your interest credited would have been zero under this portion of your Account Value for the Policy Year.

Note: This example is strictly hypothetical and intended to demonstrate only the Option U formula. The abbreviations used in the formula and examples (e.g. A, B, C, D, etc.) may differ from the abbreviations used in the actual Interest Credit Option Endorsements. The Participation Rate and Asset Fee Rate are assumed for purposes of this example.

Additional Benefits

Policy Loan

Starting the 2nd Policy Month (4th Policy Year in Virginia and Vermont), a policy loan for a minimum of \$500 may be taken for up to 60% of the Contract Value (100% of the Cash Surrender Value in Florida, Virginia, and Vermont) if the Interest Credit Allocation Percentage for Interest Credit Option B is 100%.

Any loan must be repaid before allocation to any other Interest Credit Option can be elected. All or part of a loan may be repaid at any time, but each payment must be at least \$25. The interest on the loan must be paid annually at 7.4% in advance. If not, the interest will be added to the amount of the loan. Also, cash loans are not available for IRAs or Roth IRAs or for some other qualified plans.

If any loan amount is owed to us when a Settlement Option is elected or upon the Annuitant's death, whichever occurs first, such amount will be treated as a partial withdrawal and will be subject to Withdrawal Charges. See endorsements for complete information; certain limitations and exclusions may apply. Endorsement terms and/or availability may vary by state.

Optional Withdrawal Benefit Riders

There are optional Withdrawal Benefit Riders that can be added to the NWL Ultra Value annuity at issue. Election of one of these riders can provide guaranteed minimum income benefits for the life of a single Annuitant or Joint Annuitants without the election of a Settlement Option.

A charge applies to each rider, and riders may not be available in all states. Please refer to the separate Withdrawal Benefit Rider consumer disclosure brochures for complete descriptions of the benefits, features, and applicable charges for each optional rider. The charges and benefits of the Withdrawal Benefit Rider will be deducted from the Account Value of the Policy, and may reduce the benefits provided by the Policy.

Settlement Options

You may elect to receive the Contract Value as a series of payments, referred to as Settlement Options, beginning on the Annuity Date. You may choose an Annuity Date that occurs as early as the end of the 5th Policy Anniversary (1st Policy Anniversary in Florida).

The Settlement Options that may be elected by the Owner include:

- Income for Life
- Life Income with a Guaranteed Period
- Life Income with Installment Refund
- Survivorship Annuity
- Monthly Income for a Fixed Period
- Annual Income for a Fixed Period
- Proceeds Held at Interest Only

A Guaranteed Interest Rate of 1.25% is used in calculating payments for the Settlement Options. NWL may, at its option, use an Interest Rate that is higher than the Guaranteed Rate. Consult the Policy for complete details of these options.

Death Benefits

At the death of the Annuitant before the Annuity Date, the Beneficiary may choose to receive the Contract Value (Cash Surrender Value in Louisiana and Guam) as a single sum or the Contract Value paid out under an available Settlement Option.

At the death of the Annuitant after the Annuity Date, the Beneficiary will receive any unpaid guaranteed amounts under the Settlement Option in force on the date of death. No other death benefits will be paid.

Spousal Continuation Benefit: If the surviving spouse is the named Beneficiary and the Owner dies, the surviving spouse may become the Owner and continue the annuity and the income tax-deferral.

"Free Look" Period

Your satisfaction is important to us! If you change your mind about whether this annuity fits your needs after you receive your Policy, or if you are dissatisfied for any reason, you have at least twenty days after receipt of the Policy during which you can return it without incurring charges (referred to as a "free look" period). This time period may be longer; please see your Policy for details.

Account Statement

Each Policy Year, the Owner will receive a detailed statement of the values of the Policy.

Legal and Tax Advice

NWL does not authorize its agents or employees to give legal or tax advice. Representations made in this brochure are based on the Company's understanding of current tax law.

For an explanation of how those laws apply to you, consult with an attorney, accountant, or other tax advisor. All withdrawals from NWL Ultra Value may be subject to federal income tax, and withdrawals made before age 59½ may be subject to an additional 10% income tax penalty.

Some or all of a non-qualified withdrawal will be reported as taxable income depending on the withdrawal amount and the amount of accrued interest earned in the policy. This is so because interest on non-qualified annuities is assumed to be withdrawn first.

NWL Ultra Value is underwritten by National Western Life Insurance Company, 10801 N Mopac Expy, Bldg. 3, Austin, Texas, 78759-5415. Policy Forms 01-1141-06, 01-1141-13-FL, and state variations not approved in all states.

Tax Advantages

Because income taxes are deferred until funds are withdrawn, interest is earned on dollars that might otherwise be paid in taxes. This results in greater financial growth than might be possible in a taxable savings instrument. In addition to deferring income taxes, you may exercise some control over the ultimate timing of income taxation.

Taxes are imposed when funds are withdrawn or paid as a regular income. For the most part, you select the time funds are withdrawn and, therefore, when you are taxed. More importantly perhaps, you can select an Income Settlement Option and spread the taxes payable over a number of years.

Withdrawals before the Owner is 59½ may be subject to a 10% income tax penalty.

Income tax deferral is provided by any tax-qualified retirement plan. As such, the tax-deferred feature of a qualified annuity is redundant. Note that only an annuity can provide an income that cannot be outlived.

Standard and Poor's®

Submit with Application

Thank you for choosing to purchase the NWL Ultra Value Annuity. If you have any questions after you receive your annuity Policy, please contact your agent or call NWL's Client Services Department at 1-800-922-9422. We want to be sure that you read all pages of this disclosure brochure and are aware of the benefits and features explained within it, including but not limited to the following:

- This is a deferred annuity, and it is a long-term savings vehicle.
- This annuity has a "free look" period, during which you can surrender the annuity Policy after receiving it without incurring Withdrawal Charges (described more fully in your annuity Policy).
- Any results shown, other than guaranteed minimum values, are not guarantees, promises, or warranties.
- Withdrawal Charges may be deducted from your Account Value.
- For any Policy issued as a tax-qualified plan, you may have to make withdrawals to meet minimum distribution requirements.
- If applied for, the Annual Charge for a Withdrawal Benefit Rider may be deducted from your Account Value.
- Your agent receives compensation for the sale of this annuity policy.
- The Interest Credit Option B fixed interest rate will likely be higher in the first Policy Year than in subsequent Policy Years.
- Participation Rates will likely be higher in the first Policy Year than in subsequent Policy Years and may be as low as 20%, and Asset Fee Rates will likely be lower in the first Policy Year than in subsequent Policy Years and may be as high as 6%.
- You can allocate 100% to Option A, B, or U or in any combination among Option A, B, or U in whole numbers whose sum is 100%.

State your allocation percentage(s) here		
Note that if only one allocation percentage is marked, NWL will allocate 100% to that Option.		
Monthly Average Option A	Fixed Interest Rate Option B	Low Volatility Annual Point-to-Point Option U

National Western Life Insurance Company is a Colorado corporation with executive offices in Austin, Texas. The Company offers a full line of life insurance and annuity products in 49 states and the District of Columbia. Visit our website nationalwesternlife.com for all current financial information.

Since its start in 1956, NWL has emphasized financial strength for the protection of its policyholders.

As a legal reserve insurance company, NWL must set aside a portion of its assets equal to reserves required by law. Annually, a financial statement is filed with each state's insurance department. These departments have authority to verify that the appropriate reserves are maintained.

To help you fully understand what the NWL Ultra Value annuity has to offer, NWL requires that your agent review this disclosure brochure with you so that you may ask any questions that you may have. **You may also call NWL's Client Services Department at 1-800-922-9422 if you have any questions.** NWL offers a wide variety of annuity products with different benefits, features, and limitations. Please ask your agent for more information.
