A Flexible Premium Deferred Fixed Indexed Annuity For Long Term Accumulation

You may choose the advantage of interest accumulation based on a formula linked in part to an index.
Policy Form 01-1161-16-CA

This Consumer Information Summary and Disclosure Brochure
is not part of the Policy and does not modify the Policy in any way.

NWL[®] Impact

Planning ahead for peace of mind.

The NWL[®] Impact offers liquidity, flexibility, and growth potential to protect you and your family. Peace of mind now, and in the future.

The NWL[®] Impact Annuity is a flexible premium deferred annuity.

It is a **long-term contract** intended as a secure planning vehicle for retirement accumulation and income. The NWL Impact Annuity provides the important benefits of many tax deferred annuities: interest accumulation, safety, tax-deferral, and liquidity.

Like any annuity issuer, National Western incurs expenses to sell and issue its annuity policies, including compensation to its agents, bonus amounts and/or additional interest (if applicable), option costs, and various other expenses, and these expenses are taken into consideration when interest rates, asset fee rates, and participation rates are established and reset.

You will receive all benefits as set forth in the Contract.

Highlights

Product Type	Flexible Premium Deferred Fixed Indexed Annuity
Contract Term	10 Years
Withdrawal Charge Period	8 Years
Issue Ages	Annuitant 0–80: Q/NQ Owner 0–85: Q/NQ (If Different from Annuitant)
Premium	Minimum Q - \$2,000 NQ - \$5,000 Maximum Up to \$1,500,000 per annuitant without prior approval Additions \$100 Minimum
Premium Bonus	5% of premiums received in the first policy year Subject to a 10 year vesting schedule.
Index Strategies	Monthly Average with a Participation Rate and Asset Fee Rate Option A Low Volatility Annual Point-to-Point Option U Fixed Interest Rate Option B
Minimum Guaranteed Interest Rate	The Minimum Guaranteed Interest Rate is never less than 1.00% and never more than 3.00%.
Free Withdrawals	10% of the Account Value plus any Vested Bonus Value once annually after the first Policy Year. IRA Qualified — RMD free of a Withdrawal Charge in all Policy Years.
Systematic Interest	Interest available systematically in lieu of Free Withdrawal option above. Each payment must be at least \$100.00. See Policy for details.
Death Benefit	Account Value and the Bonus Value payable as single sum or under a Settlement Option, if Annuitant dies before Annuity Date. If Annuitant dies on or after the Annuity Date, we will pay the Beneficiary any unpaid guaranteed amounts provided by the Settlement Option in force on the date of death.
Policy Loan	Non-qualified contracts only; loan rate is 7.4% in advance.
Annuitization	Annuitize at full Contract Value on 10th Policy Anniversary.

Premium Payment & Issue Ages

A minimum initial premium payment of at least \$2,000 (qualified) or \$5,000 (non-qualified) is required. Additional premium payments of at least \$100 can be made. Any premiums received more than 20 calendar days after the issue date, or after any subsequent Policy Anniversary, will earn the non-indexed fixed interest rate until the next Policy Anniversary.

The Company does have the right to limit premium payments in any renewal year to the amount of premiums made in the preceding year.

Premium payments in excess of \$500,000 may require prior Company approval.

If applicable, Federal, State, and Municipal taxes, and any fees or assessments related to the Policy, payment of which is required or authorized by law, will be deducted from the benefits under the Policy as required or authorized by law.

National Western Life will not issue this annuity if the age of the Annuitant or Owner exceeds the maximum Issue Age, which is published from time to time.

Policy Values

The **Account Value** is equal to 100% of premiums, less partial withdrawals and applicable Withdrawal Charges, and less any applicable rider and/or endorsement charges and benefits*, accumulated with interest. Interest is based on the Interest Credit Option(s) that you have selected.

The **Bonus Value** is equal to the premiums received in the first Policy Year multiplied by the Bonus Percentage of 5%, accumulated with interest, if any, at the same rate as the Account Value, less any withdrawals (and applicable withdrawal charges) in excess of withdrawals taken without a Withdrawal Charge, multiplied by the Bonus Percentage of 5% and interest on such amount. The Bonus Value is subject to vesting as indicated in the Bonus Vesting Schedule. The **Vested Bonus Value** is the Bonus Value times the Vesting Percentage as indicated in the Bonus Vesting Schedule.

***See description of Withdrawal Charges and available Withdrawal Benefit Riders for more information regarding rider charges and benefits.**

The **Cash Surrender Value** is the Account Value less a Withdrawal Charge, if any, plus any Vested Bonus Value, or the Minimum Guaranteed Contract Value, whichever is greater.

The **Minimum Guaranteed Contract Value** will never be less than 87.5% of premiums received, less partial withdrawals, accumulated at the Minimum Guaranteed Interest Rate.

The **Minimum Guaranteed Interest Rate** is set for new policies each calendar quarter. It is never less than 1.00%, has a maximum of 3.00%, and is guaranteed for the Contract Term. At the end of the Contract Term, the Minimum Guaranteed Interest Rate will be re-determined. It is the average of the 5 Year Constant Maturity Treasury Rate minus 1.25% for the 6 month period ending 1 month prior to the beginning of the current calendar quarter.

The **Contract Value** is the greater of the Account Value plus any Vested Bonus Value, or the Minimum Guaranteed Contract Value.

5% Premium Bonus

Each premium payment in the first Policy Year receives a premium Bonus Percentage of 5%, but this bonus is not immediately available to you for partial withdrawal or full surrender. The full Bonus Value is immediately available to you for the purpose of your death benefit, beginning in the first Policy Year. If you take a partial withdrawal or fully surrender your policy, the Bonus Value is only available based on the 10 year Bonus Vesting Schedule described in more detail to the right.

Your Bonus Value is vested 5% at the end of year 1, 10% at the end of year 2, and further as described in the Bonus Vesting Schedule chart to the right. At the end of Policy Year 10, the full Bonus Value will be available. Note that all vesting occurs at the end of the Policy Year.

Hypothetical Bonus Vesting Schedule Examples	
Example 1 - Vested Bonus Value available at the end of Policy Year 1	Premium \$100,000 Vested Bonus Value \$250
Example 2 - Vested Bonus Value available at the end of Policy Year 5	Premium \$100,000 Vested Bonus Value \$1,500
Example 3 - Vested Bonus Value available at the end of Policy Year 9	Premium \$100,000 Vested Bonus Value \$3,500
Example 4 - Vested Bonus Value available at the end of Policy Year 10	Premium \$100,000 Vested Bonus Value \$5,000
Example 5 - Bonus Value available in all Policy Years upon death of the Annuitant before the Annuity Date	Premium \$100,000 Bonus Value \$5,000

Bonus Vesting Schedule	
End of Policy Year	Vesting Percentage
1	5%
2	10%
3	15%
4	20%
5	30%
6	40%
7	50%
8	60%
9	70%
10	100%

Note: These Hypothetical Bonus Vesting Schedule examples are strictly hypothetical and intended only to illustrate the way in which the Bonus Vesting Schedule operates and assume no withdrawals, loans, surrenders, exercise of a withdrawal benefit rider or other applicable riders, rider charges, interest credits, etc. Assumes a 5% bonus. The Bonus Value is available for partial withdrawals or full surrender subject to the Bonus Vesting Schedule. Any withdrawals in excess of withdrawals taken without a Withdrawal Charge are subject to withdrawal charges as specified in the Policy and will reduce your Bonus Value. Please see your Policy for further detail regarding the calculation of your bonus.

5% Premium Bonus

Each premium payment in the first Policy Year receives a premium Bonus Percentage of 5%, but this bonus is not immediately available to you for partial withdrawal or full surrender.

The full Bonus Value is immediately available to you for the purpose of your death benefit, beginning in the first Policy Year. If you take a partial withdrawal or fully surrender your policy, the Bonus Value is only available based on the 10 year Bonus Vesting Schedule described in more detail to the right.

Your Bonus Value is vested 5% at the end of year 1, 10% at the end of year 2, and further as described in the Bonus Vesting Schedule chart to the right. At the end of Policy Year 10, the full Bonus Value will be available. Note that all vesting occurs at the end of the Policy Year.

Withdrawal Charges

This is a long-term accumulation annuity. If you surrender your Policy during the first 8 Policy Years, you will incur a Withdrawal Charge. In addition, if you take a partial withdrawal, you will incur a Withdrawal Charge unless you exercise one of the available options to avoid Withdrawal Charges, which are described later in this brochure.

Withdrawal Charge Rates

Policy Year	1	2	3	4	5	6	7	8	9+
Rate	8.00%	7.75%	6.50%	5.25%	4.25%	3.25%	2.00%	1.00%	0%

National Western Life reserves the right to defer payment for up to 6 months after we receive your withdrawal request.

Interest is charged on any withdrawal from the processing date to the next Option Term End Date.

If you surrender your policy, Withdrawal Charges are calculated by multiplying the Account Value, less any unexercised amounts available to you without a Withdrawal Charge, by the Withdrawal Charge Rate shown on the schedule below. If you take a partial withdrawal, Withdrawal Charges are calculated by multiplying the partial withdrawal amount, less any unexercised amounts available to you without a Withdrawal Charge, by the applicable Withdrawal Charge Rate shown on the schedule below.

Available Options to Avoid Withdrawal Charges

You may exercise one of the following options to access your Policy's Account Value without Withdrawal Charges.

- One withdrawal of up to 10% of the Account Value plus any Vested Bonus Value may be withdrawn without a Withdrawal Charge each Policy Year after the first.* Remember that partial vesting does not begin until the end of Policy Year 1.
- Systematic interest withdrawals of interest earnings can be taken without a Withdrawal Charge each Policy Year after the first* as long as each payment is at least \$100 and does not invade the principal. The systematic payments may be paid monthly, quarterly, semi-annually, or annually.
- IRA Required Minimum Distribution (if applicable) in all Policy Years.*
- Policy Loan (100% Fixed Interest – Option B)

*** Only one of these options may be elected in the same Policy Year.**

At the end of the 10-year Contract Term, you may withdraw the full Contract Value or take a partial withdrawal without any Withdrawal Charges or Bonus Vesting requirements. You do have the right to keep the Contract Value with National Western Life for the rest of your life where it will continue to earn interest at a rate not less than the Minimum Guaranteed Interest Rate that has been re-determined at the end of your Contract Term.

Please note: All withdrawals may be subject to federal income tax. Withdrawals prior to age 59½ may be subject to an additional 10% federal income tax penalty, and if a trust is named as the Owner, such withdrawals may be subject to this additional 10% federal income tax penalty regardless of age.

Interest Credit Options

In addition to the option to earn a fixed rate of interest, you also have Indexed Interest Credit Options. All Indexed Interest Credit Options available at issue may not be available on renewal. Once selected, any current Interest Credit Option is effective for the full Policy Year. You may elect to allocate the premium to more than one Interest Credit Option. The Interest Credit Allocation Percentages for available Interest Credit Options can be any whole number percentages, in any combination, whose total is 100%.

You may change to any available Interest Credit Option for the following Policy Year by submitting a completed Interest Allocation Election Notice at least 5 business days prior to the Policy Anniversary.

Fixed Interest Option

Option B - This option provides for a fixed rate set by National Western Life as described in the Policy. The Interest Rate on the portion of the Account Value allocated to Interest Credit Option B is declared in advance by NWL and is guaranteed for the first Policy Year. This Interest Rate is located on page three of the Policy. The interest rate in the first Policy Year will likely be higher than the interest rate in subsequent Policy Years. After the first Policy Year, these interest rates will be declared from time to time, are not guaranteed, and are subject to change.

Indexed Interest Options

All Indexed Interest is credited annually and locked-in.

Indexed Interest earned, if any, is based on a formula linked in part to the underlying index(es) of the available Indexed Interest Options. Fixed indexed annuities are not stock market investments and do not directly participate in any stock or equity investments. The indexes may not include any dividends paid on the underlying stocks. When you purchase the NWL Impact, you are not directly investing in a stock market index. Indexed Interest is not earned or credited until the Policy Anniversary. Until the Policy Year is over and the necessary Index Values are available, the Indexed Interest formula cannot be calculated.

If publication of an Index is discontinued, or the calculation is substantially changed, or an Index is not available to us, we will substitute a suitable alternative index, subject to the approval of the Commissioner of Insurance of the state where the Policy was issued, and notify you in writing.

The Participation Rates and Asset Fee Rates are declared at issue and guaranteed for the first Policy Year only. For subsequent years, these rates are declared by NWL on each Policy Anniversary, are not guaranteed, and are subject to change.

In subsequent Policy Years, the Participation Rates will likely be lower, and the Asset Fee Rates will likely be higher, than in the first Policy Year.

Monthly Average with a Participation Rate and Asset Free Rate

Option A

To calculate your annual return under Interest Credit Option A, NWL first calculates the Index Average. The Index Average is the average of the S&P 500® Index Values corresponding to the 12 Index Dates each Policy Year. The Index Value on the Policy Date (or prior Policy Anniversary if not the first Policy Year) is then subtracted from the Index Average. This difference is then divided by the Index Value on the Policy Date (or prior Policy Anniversary if not the first Policy Year). The resulting value is multiplied by the Participation Rate for the Policy Year and then reduced by the Asset Fee Rate for the Policy Year. To calculate annual return amount, multiply the annual return by the premium. For Policy Year 1, premiums received within 20 days after the Policy Date, or in subsequent years, the previous Policy Anniversary Account Value.

The Index Date is the same day each month as the day immediately before the Policy Date. For example, if the Policy Date is August 10th, NWL® will average the Index Value for the 9th day of each month beginning with September 9th and concluding for that year with the next August 9th.

The Index Value is the closing value of the S&P 500® Index on a scheduled trading day. The Index Value on the Policy Date is the Index Value on the first day preceding the Policy Date for which the Index Value is available. The Index Value on any

Policy Anniversary is the Index Value on the first day preceding the Policy Anniversary for which the Index Value is available.

The Interest Credit for Option A will never be less than zero.

Index	S&P 500®
Minimum Participation Rate	30.00%
Maximum Asset Fee Rate	6.00%

Definitions for Option A Formula

Interest Credit Option A Formula: $[(A/B) \times C] - D \times E$

- A** Index Average for the current Policy Year minus Index Value on Prior Anniversary (or Policy Date if the first Policy Year)
- B** Index Value on the Prior Anniversary (or Policy Date)
- C** Participation Rate for the current Policy Year
- D** Asset Fee Rate for the current Policy Year
- E** Premium (For Policy Year 1, premiums received within 20 days after the Policy Date, or in subsequent years, the previous Policy Anniversary Account Value)

Low Volatility Annual Point-to-Point with a Participation Rate and Asset Free Rate

Option U

Interest Credited under Option U is based on a formula linked in part to the Annual Change in the Index Values of the S&P 500® Low Volatility Daily Risk Control 5% Excess Return Index.

To calculate your annual return under Interest Credit Option U, NWL calculates the Annual Index Change Rate. The Annual Index Change Rate is the Index Value on the Index Date less the Index Value on the immediately preceding Index Date (or Policy Date if the first Index Date), divided by the Index Value on the immediately preceding Index Date (or Policy Date if the first Index Date), multiplied by the Participation Rate for the Policy Year and then reduced by the Asset Fee Rate for the Policy Year. To calculate annual return amount, multiply the annual return by the premium. For Policy Year 1, premiums received within 20 days after the Policy Date, or in subsequent years, the previous Policy Anniversary Account Value.

The Index Date for Option U is the last day of each annual period beginning on the Policy Date and the same day of each year thereafter. For example, if the Policy Date is January 15th, the Index Dates are January 14th in the first Policy Year and January 14th of each following year.

The Index Value is the closing value of the S&P 500® Low Volatility Daily Risk Control 5% Excess Return Index on a

scheduled trading day. The Index Value on the Policy Date is the Index Value on the first day preceding the Policy Date for which the Index Value is available.

The Index Value on any Policy Anniversary is the Index Value on the first day preceding the Policy Anniversary for which the Index Value is available.

The Interest Credit for Option U will never be less than zero.

The S&P 500® Low Volatility Daily Risk Control 5% Excess Return Index includes the portion of returns generated by the underlying index that come from dividend reinvestment and is funded at LIBOR or such other rate as may be set by S&P®.

Index	S&P 500® Low Volatility Daily Risk Control 5% Excess Return
Minimum Participation Rate	20.00%
Maximum Asset Fee Rate	2.00%

Definitions for Option U Formula

Interest Credit Option U Formula: $[(A/B) \times C] - D \times E$

- A** Index Value for the current Policy Year minus Index Value on Prior Anniversary (or Policy Date if the first Policy Year)
- B** Index Value on the Prior Anniversary (or Policy Date)
- C** Participation Rate for the current Policy Year
- D** Asset Fee Rate for the current Policy Year
- E** Premium (For Policy Year 1, premiums received within 20 days after the Policy Date, or in subsequent years, the previous Policy Anniversary Account Value)

Additional Benefits

Policy Loan

Starting the 2nd Policy Month, a policy loan for a minimum of \$500 may be taken for up to 60% of the Contract Value if the Interest Credit Allocation Percentage for Interest Credit Option B is 100%.

Any loan must be repaid before allocation to any other Interest Credit Option can be elected. All or part of a loan may be repaid at any time, but each payment must be at least \$25. The interest on the loan must be paid annually at 7.4% in advance. If not, the interest will be added to the amount of the loan. Also, cash loans are not available for IRAs or Roth IRAs or for some other qualified plans.

If any loan amount is owed to us when a Settlement Option is elected or upon the Annuitant's death, whichever occurs first, such amount will be treated as a partial withdrawal and will be subject to Withdrawal Charges. See endorsements for complete information; certain limitations and exclusions may apply. Endorsement terms and/or availability may vary by state.

Optional Withdrawal Benefit Riders

There are optional Withdrawal Benefit Riders that can be added to the NWL® Impact annuity at issue. Election of one of these riders can provide guaranteed minimum income benefits for the life of a single Annuitant or Joint Annuitants without the election of a Settlement Option.

A charge applies to each rider, and riders may not be available in all states. Please refer to the separate Withdrawal Benefit Rider consumer disclosure brochures for complete descriptions of the benefits, features, and applicable charges for each optional rider. The charges and benefits of the Withdrawal Benefit Rider will be deducted from the Account Value of the Policy, and may reduce the benefits provided by the Policy.

"Free Look" Period

Your satisfaction is important to us! If you change your mind about whether this annuity fits your needs after you receive your Policy, or if you are dissatisfied for any reason, you have thirty days after receipt of the Policy during which you can return it without incurring charges (referred to as a "free look" period). Please see your Policy for details.

Settlement Options

You may elect to receive the Contract Value as a series of payments, referred to as Settlement Options, beginning on the Annuity Date. The Annuity Date, is 10 years after the Policy Date, but may be changed to no later than the Policy Anniversary on which the annuitant attains age 99.

The Settlement Options that may be elected by the Owner include:

- Income for Life
- Life Income with a Guaranteed Period
- Life Income with Installment Refund
- Survivorship Annuity
- Monthly Income for a Fixed Period
- Annual Income for a Fixed Period
- Proceeds Held at Interest Only

A Guaranteed Interest Rate of 1.50% is used in calculating payments for the Settlement Options. National Western Life may, at its option, use an Interest Rate that is higher than the Guaranteed Rate. Consult the Policy for complete details of these options.

Death Benefits

At the death of the Annuitant before the Annuity Date, the Beneficiary may choose to receive the Account Value and the Bonus Value as a single sum or paid out under an available Settlement Option.

At the death of the Annuitant after the Annuity Date, the Beneficiary will receive any unpaid guaranteed amounts under the Settlement Option in force on the date of death. No other death benefits will be paid.

Spousal Continuation Benefit: If the surviving spouse is the named Beneficiary and the Owner dies, the surviving spouse may become the Owner and continue the annuity and the income tax-deferral.

Account Statement

Each Policy Year, the Owner will receive a detailed statement of the values of the Policy.

Legal and Tax Advice

National Western Life does not authorize its agents or employees to give legal or tax advice. Representations made in this brochure are based on the Company's understanding of current tax law.

For an explanation of how those laws apply to you, consult with an attorney, accountant, or other tax advisor. All withdrawals from the NWL® Impact may be subject to federal income tax, and withdrawals made before age 59½ may be subject to an additional 10% income tax penalty.

Some or all of a non-qualified withdrawal will be reported as taxable income depending on the withdrawal amount and the amount of accrued interest earned in the policy. This is so because interest on non-qualified annuities is assumed to be withdrawn first.

The NWL® Impact is underwritten by National Western Life Insurance Company, 10801 N Mopac Expy, Bldg. 3, Austin, Texas, 78759-5415. Policy Form 01-1161-16-CA and state variations not approved in all states.

Tax Advantages

Because income taxes are deferred until funds are withdrawn, interest is earned on dollars that might otherwise be paid in taxes. This results in greater financial growth than might be possible in a taxable savings instrument. In addition to deferring income taxes, you may exercise some control over the ultimate timing of income taxation.

Taxes are imposed when funds are withdrawn or paid as a regular income. For the most part, you select the time funds are withdrawn and, therefore, when you are taxed. More importantly perhaps, you can select an Income Settlement Option and spread the taxes payable over a number of years.

Withdrawals before the Owner is 59½ may be subject to a 10% income tax penalty.

Income tax deferral is provided by any tax-qualified retirement plan. As such, the tax-deferred feature of a qualified annuity is redundant. Note that only an annuity can provide an income that cannot be outlived.

THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND NATIONAL WESTERN LIFE, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

Submit with Application

Thank you for choosing to purchase the NWL® Impact Annuity. If you have any questions after you receive your annuity Policy, please contact your agent or call National Western's Client Services Department at 1-800-922-9422. We want to be sure that you read all 14 pages of this disclosure brochure and are aware of the benefits and features explained within it, including but not limited to the following:

- This is a deferred annuity, and it is a long-term savings vehicle.
- This annuity has a "free look" period, during which you can surrender the annuity Policy after receiving it without incurring Withdrawal Charges (described more fully in your annuity Policy).
- Any results shown, other than guaranteed minimum values, are not guarantees, promises, or warranties.
- For any Policy issued as a tax-qualified plan, you may have to make withdrawals to meet minimum distribution requirements.
- If applied for, the Annual Charge for a Withdrawal Benefit Rider may be deducted from your Account Value.
- The Bonus Value in this policy is subject to the Bonus Vesting Schedule. Your bonus is vested 5% at the end of year 1, 10% at the end of year 2, 15% at the end of year 3, 20% at the end of year 4, 30% at the end of year 5, 40% at the end of year 6, 50% at the end of year 7, 60% at the end of year 8, 70% at the end of year 9, and 100% at the end of year 10.
- Unless you exercise an available option to avoid Withdrawal Charges, you will incur a Withdrawal Charge and you will incur a reduction in your Bonus Value. Withdrawal Charges may be deducted from your Account Value.
- Your agent receives compensation for the sale of this annuity Policy.
- The Annuity Date is 10 years after the Policy Date and may only be changed to a date no later than the Policy anniversary on which the annuitant attains age 99.
- The Interest Credit Option B fixed interest rate will likely be higher in the first Policy Year than in subsequent Policy Years.
- The Participation Rates will likely be higher in the first Policy Year than in subsequent Policy Years and may be as low as 20%, and Asset Fee Rates will likely be lower in the first Policy Year than in subsequent Policy Years and may be as high as 6%.
- You can allocate 100% to Option A, B, U or in any combination among Option A, B, U in whole numbers whose sum is 100%.

State your allocation percentage(s) here		
Note that if only one allocation percentage is marked, NWL will allocate 100% to that Option.

National Western Life Insurance Company is a Colorado corporation with executive offices in Austin, Texas. The Company offers a full line of life insurance and annuity products in 49 states and the District of Columbia. Visit our website www.nationalwesternlife.com for all current financial information.

Since its start in 1956, National Western has emphasized financial strength for the protection of its policyholders.

As a legal reserve insurance company, National Western must set aside a portion of its assets equal to reserves required by law. Annually, a financial statement is filed with each state's insurance department. These departments have authority to verify that the appropriate reserves are maintained.

To help you fully understand what the NWL® Impact annuity has to offer, National Western requires that your agent review this disclosure brochure with you so that you may ask any questions that you may have. **You may also call National Western's Client Services Department at 1-800-922-9422 if you have any questions.** National Western Life offers a wide variety of annuity products with different benefits, features, and limitations. Please ask your agent for more information.
