Interest crediting

- Your initial interest rate⁴ will be determined by the amount of your premium payment, when it is received, and the initial interest rate guarantee period selected.
- You have a choice of a three-, four-, five-, six-, or seven-year initial interest rate guarantee period, which corresponds to a matching surrender charge schedule.
- *To be eligible for the higher rate in effect on the date the application is signed or the date the premium is received in full:*

For applications with a premium payment, we must receive both the application and the premium payment within 30 days of when the application is signed. If money is being sent to us separately as part of a tax-free exchange, rollover, or transfer from another institution initiated by NYLIAC, the application must be received by NYLIAC within 30 days of when the application is signed, and the funds must be received within 60 days of when the application is signed. For applications submitted electronically, the sign date is the date business is submitted onto the electronic system. If premiums are received outside of the periods described, the policy will be issued with the rate in effect on the date the last premium is received.
- At the end of the initial interest rate guarantee period, the policy will receive a new renewal rate each anniversary that is based on the accumulation value. That rate will not be less than the guaranteed minimum interest rate (GMIR) stated in your policy.

This is a single premium fixed deferred annuity with several interest rate guarantee/surrender periods to choose from.

¹ May not be available in all jurisdictions. Some product features may not be available at all firms. All guarantees are based on the claims-paying ability of NYLIAC.

² In California, the maximum issue age is 80.

³ Tax-qualified retirement plans already provide tax deferral under the Internal Revenue Code, so the tax deferral of an annuity does not provide any additional benefit.

⁴ Interest rates are effective annual yields.

Market Value Adjustment (MVA)

The New York Life Secure Term MVA Fixed Annuity II comes with a Market Value Adjustment (MVA) provision that allows NYLIAC to offer a potentially higher initial interest rate than a product that does not offer this adjustment. An MVA only applies when the policy owner surrenders or makes a withdrawal from the contract that is greater than the surrender-charge-free withdrawal amount during the surrender charge period. An MVA is not applicable after the surrender charge period is over. The MVA will add or deduct an amount from your annuity, or from the withdrawal amount you receive. The amount of the MVA is determined by a formula that measures the change in the U.S. Treasury Constant Maturity yield, plus the applicable Bloomberg Barclays U.S. Corporate Bond Index from the issue date to the surrender or excess withdrawal date.⁷ If the interest rates on which the MVA is based are higher than when you purchased the annuity, the MVA will likely be negative, meaning an additional amount may be deducted from either your annuity or your withdrawal amount. Conversely, if the interest rates on which the MVA is based are lower than when you purchased your annuity, the MVA will likely be positive, meaning money may be added to either your annuity or to your withdrawal amount. The MVA cannot decrease the accumulation value of the policy below the premiums paid (less prior withdrawals and applicable charges and taxes) accumulated at the guaranteed minimum interest rate (GMIR) as stated in your contract. However, the applicable surrender charges may further reduce the accumulation value below the premium paid or the amount you receive when you make a partial withdrawal or fully surrender the policy. **Living Needs Benefit/
Unemployment Rider^{10, 11}**

The Living Needs Benefit/Unemployment Rider is automatically added to your policy with no additional fee. If you need immediate access to the money in your policy, this rider may give you some flexibility in accessing it, assuming you meet one of the following qualifying events: You are enrolled and living in a health care facility for 60 consecutive days; are diagnosed with a life expectancy of 12 months or less by a licensed physician; have a total and permanent disability that prevents you from performing any work for pay or profit for at least 12 consecutive months; or qualify for and have been receiving state unemployment benefits for 60 consecutive days. You may be eligible to make a withdrawal or receive the Accumulation Value with full or partial waiver of surrender charges, but in order to be eligible, the qualifying event must take place on or after the policy date, and the policy must be in force for at least one year prior to receiving any benefits.

⁸ Death benefit payments are dependent upon the claims-paying ability of NYLIAC. Under Joint Ownership, "Surviving Spouse" should be designated as the sole primary beneficiary prior to the annuitization date, or the contract will end and any death proceeds will pay out to the named beneficiary at the death of either owner.

⁹ The MVA does not apply to death benefit payments.

¹⁰ This rider is automatically added to all policies with an issue age of 85 and younger. There is a minimum cash value of \$5,000 to be eligible to receive these benefits. Available in jurisdictions where approved and subject to eligibility requirements. Some states may offer the rider under a different name, and benefits may vary. Benefits do not apply if the policy is annuitized, and benefits are subject to the terms of the rider. Withdrawals may be taxable and, if taken prior to age 59½, may be subject to a 10% IRS penalty. For disability under this rider, withdrawals or full surrenders made on or after your 66th birthday are not eligible for this benefit—applicable surrender charges and MVA will apply.

¹¹ The MVA will not apply to withdrawals made under the Living Needs Benefit/Unemployment Rider or to required minimum distributions as calculated by NYLIAC.
