If interest rates are down, the MVA will increase the withdrawal amount.</p> <p>MVA does not apply to withdrawals representing penalty-free withdrawal amounts, RMDs, annuitization or death benefit. An external index referenced in your contract is used to measure rates.</p> <p>After the initial rate term expires, the MVA no longer applies.</p>

After the 30-day window expires, withdrawal charges will resume for any withdrawal in excess of penalty-free amounts through the seventh year. Systematic withdrawals	<ol style="list-style-type: none"> 1) Systematic withdrawals are allowed at any time after contract issue by making a written election² 2) \$100 minimum amount² monthly, quarterly, semiannually or annually 3) Systematic withdrawals may be subject to withdrawal charges

Taxes, tax advantages & tax-free transfers	
Tax deferral	Federal income taxes are deferred until the year interest is withdrawn. ³ There is no tax deferral if the owner is a corporation. If the owner is a trust or other entity, please consult a tax advisor regarding the tax-deferred status. The return of principal may also be taxable on tax qualified annuities, such as traditional IRAs.
Tax-advantaged income	Once the contract is annuitized, part of each annuity income payment is considered a tax-free return of principal (except tax-qualified annuities, such as traditional IRAs, where the principal may also be taxable).

² By company practice, which is subject to change.

³ Unless your annuity is a Roth IRA, for federal income tax purposes, withdrawals are treated as earnings first, subject to ordinary income tax, and as a return of principal after earnings are exhausted.

Taxes, tax advantages & tax-free transfers

Pre-59½ withdrawals	Taxable withdrawals prior to age 59½ may be subject to a 10% federal early withdrawal tax penalty. The penalty may be waived for death, total disability (as defined by the IRS), or if the payment is made as part of a series of substantially equal payments for the life expectancy of the owner (except tax-qualified annuities where the entire amount withdrawn may be subject to a 10% federal early withdrawal tax penalty).
Tax-free exchange	May be used for exchanges from a life insurance or endowment contract or another annuity. To maintain non-taxable status, the owner and annuitant must remain the same, and the owner cannot take receipt of the funds.
Tax-qualified plans	May be an initial tax-qualified contribution, or transfer or direct rollover of funds from IRAs or qualified retirement plans such as SEPs, Keoghs, 403(b)s or 401(k)s.

Extended care	The owner must receive extended care for at least 90 consecutive days, beginning after the second contract year. The extended care may not have begun before the contract date.
Terminal illness	The owner must be initially diagnosed with a terminal illness after the contract date. Only one partial or a full withdrawal is permitted.

Death benefit

Payable on death of owner. Beneficiary will receive the contract value (without withdrawal charge or MVA). Benefits can pass directly to the designated beneficiary, avoiding the potential delays and cost of probate. Joint owners must be each other's sole primary beneficiary.

A fixed annuity is a contract between you and an insurance company that, in exchange for your premium (earning a fixed rate of interest), offers a stream of guaranteed income payments.

Annuities are long-term products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
